RE: FPS Case Number 2020-FPFO-00180

Dear Mr. Leopold:

This is our final response to your June 1, 2020, Freedom of Information Act (FOIA) request to the U.S. Department of Homeland Security (DHS). You are seeking:

1. Emails, memos, letters, directives, mentioning or referring to "Minneapolis riot," "Los Angeles riot," "Washington, DC riot," "protests and black lives matter," "protests and George Floyd," "protests and rioters and looters," "White House and protests," "Trump and tweet and shooting and looters," "protests and Minneapolis," "protests and Washington, DC," "protests and secret service," "protests and looting," "protests and ANTIFA," "protests and Boogaloo," "Big Igloo Bois and protests," "NYPD and Black Lives Matter and protests," "protests and white supremacists," "protests and Proud Boys," "protests and federal property and Federal Protective Service," "protests and National Guard," "protests and Santa Monica and Beverly Hills," "protests and riot," "Donald Trump and bunker and protests," "protests and social media," "George Floyd and Twitter and Facebook," "Black Lives Matter and Twitter and Facebook," "Donald Trump and tweets and protests." Please be sure any correspondence includes emails exchanged with fusion centers and Joint Terrorism Task Forces and any eop.gov email address.
2. Intelligence Bulletins, PATRIOT reports, open source intelligence and reports, Threat Assessments, Situation Reports, directives, mentioning or referring to nationwide protests and looting that took place between May 25 and June 1, 2020, that were sparked by the death while in police custody of George Floyd.
3. Legal opinions, legal guidance, legal memos mentioning or referring to the nationwide protests and looting and rioting that started on May 25, 2020, following the death of George Floyd while in police custody.
4. Records mentioning or referring to "riots and protests and looting" that took place in various cities relating to the death of George Floyd between May 25, 2020, and the date the search for responsive records is conducted:

To provide you with the greatest degree of access authorized by law, DHS has considered your request under both the FOIA, 5 U.S.C. § 552, and the Privacy Act, 5 U.S.C. § 552a. A search of DHS's Federal Protective Service (FPS) for documents responsive to your request produced 437 pages and three Excel spreadsheets. I have determined that 20 pages are released in full, 28 pages are withheld in their entirety, and portions of 389 pages and the three spreadsheets are partially releasable pursuant to Title 5 U.S.C. § 552 (b)(5), (b)(6), (b)(7)(A), (b)(7)(C), (b)(7)(E), and (b)(7)(F), FOIA Exemptions 5, 6, 7A, 7C, 7E, and 7F.

Enclosed are 409 pages and three Excel spreadsheets with certain information withheld as described below:

FOIA Exemption 5 protects from disclosure those inter- or intra-agency documents that are normally privileged in the civil discovery context. The three most frequently invoked privileges are the deliberative process privilege, the attorney work-product privilege, and the attorney-client privilege. After carefully reviewing the responsive documents, I have determined that portions of the responsive documents qualify for protection under the

- **Deliberative Process Privilege**

The deliberative process privilege protects the integrity of the deliberative or decision-making processes within the agency by exempting from mandatory disclosure opinions, conclusions, and recommendations included within inter-agency or intra-agency memoranda or letters. The release of this internal information would discourage the expression of candid opinions and inhibit the free and frank exchange of information among agency personnel.

- **Attorney Work-Product Privilege**

The attorney work-product privilege protects documents and other memoranda prepared by an attorney in contemplation of litigation.

- **Attorney-Client Privilege**

The attorney-client privilege protects confidential communications between an attorney and his client relating to a legal matter for which the client has sought professional advice. It applies to facts divulged by a client to his attorney, and encompasses any opinions given by an attorney to his client based upon, and thus reflecting, those facts, as well as communications between attorneys that reflect client-supplied information. The attorney-client privilege is not limited to the context of litigation.

FOIA Exemption 6 exempts from disclosure personnel or medical files and similar files the release of which would cause a clearly unwarranted invasion of personal privacy. This requires a balancing of the public's right to disclosure against the individual's right to privacy. The privacy interests of the individuals in the records you have requested outweigh any minimal public interest in disclosure of the information. Any private interest you may have in that information does not factor into the aforementioned balancing test.

FOIA Exemption 7(A) protects from disclosure records or information compiled for law enforcement purposes, the release of which could reasonably be expected to interfere with

enforcement proceedings. I have determined that the information you are seeking relates to an ongoing criminal law enforcement investigation. Therefore, I am withholding all records, documents, and/or other material, which if disclosed prior to completion, could reasonably be expected to interfere with law enforcement proceedings and final agency actions related to those proceedings. Please be advised that once all pending matters are resolved and FOIA Exemption 7(A) is no longer applicable, there may be other exemptions which could protect certain information from disclosure, such as FOIA Exemptions (2), 7(C), 7(D), and 7(E).

FOIA Exemption 7(C) protects records or information compiled for law enforcement purposes that could reasonably be expected to constitute an unwarranted invasion of personal privacy. This exemption takes particular note of the strong interests of individuals, whether they are suspects, witnesses, or investigators, in not being unwarrantably associated with alleged criminal activity. That interest extends to persons who are not only the subjects of the investigation, but those who may have their privacy invaded by having their identities and information about them revealed in connection with an investigation. Based upon the traditional recognition of strong privacy interest in law enforcement records, categorical withholding of information that identifies third parties in law enforcement records is ordinarily appropriate. As such, I have determined that the privacy interest in the identities of individuals in the records you have requested clearly outweigh any minimal public interest in disclosure of the information. Please note that any private interest you may have in that information does not factor into this determination.

FOIA Exemption 7(E) protects records compiled for law enforcement purposes, the release of which would disclose techniques and/or procedures for law enforcement investigations or prosecutions or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law.

FOIA Exemption 7(F) permits the government to withhold all information about any individual when disclosure of information about him could reasonably be expected to endanger the life or physical safety of any individual. This exemption also protects physical security at critical infrastructure sites.

If you are not satisfied with the response to this request, you may administratively appeal. Should you wish to do so, you must send your appeal and a copy of this letter, within 90 days of the date of this letter, to: Privacy Office, Attn: FOIA Appeals, U.S. Department of Homeland Security, 2707 Martin Luther King Avenue, SE, Mail Stop 0655, Washington, D.C. 20528-0655 or email to foia@hq.dhs.gov, following the procedures outlined in the DHS FOIA regulations at 6 C.F.R. Part 5 § 5.8. Your envelope and letter should be marked "FOIA Appeal." Copies of the FOIA and DHS FOIA regulations are available at www.dhs.gov/foia.

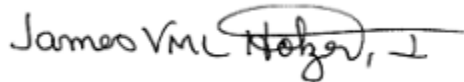

Please be advised, FPS is currently processing records responsive to items 1 and 4 of your request and a final response will be provided when this process is complete.

Provisions of the FOIA allow DHS to recover part of the cost of complying with your request. DHS has waived the processing fees concerning this request; therefore, there is no charge.

You may contact the DHS FOIA Public Liaison at 202-343-1743 or toll free 1-866-431-0486 for any further assistance and to discuss any aspect of your request. Additionally, you have a right to seek dispute resolution services from the Office of Government Information Services (OGIS) which mediates disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. If you are requesting access to your own records (which is considered a Privacy Act request), you should know that OGIS does not have the authority to handle requests made under the Privacy Act of 1974. You may contact OGIS at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you need to contact our office again about this matter, please refer to **2020-FPFO-00180**. This office can be reached at FOIA@HQ.DHS.GOV or call 202-343-1743 or toll free 1-866-431-0486.

~~(U//LES)~~ Bulletin focus: (1) Attacks targeting law enforcement and civilians during protests and riots in the wake of the death of a man in police custody (2) Related countermeasures for consideration (3) Arrest and officer injury statistics.

~~(U)~~ **DETAILS:**

~~(U//LES)~~ On May 25, 2020, a 46-year-old African American man died after pleading for help as a white police officer held his knee on the man's neck pinning him to the ground in an incident captured on video. Four Minneapolis police officers have been fired and the officer who knelt on the man has been charged with third-degree murder and manslaughter. The death ignited protests in Minneapolis and other cities around the country, some of which have turned violent and destructive. Multiple cities have declared states of emergency and imposed curfews and the National Guard has been called out in some states.

- ~~(U//LES)~~ On May 29, 2020, at approximately 9:45 PM PST, in front of the Federal Building located at 1301 Clay Street, Oakland, CA, witnesses observed a white van drive by, open the side door, and open fire on two Federal Protective Service (FPS) Protective Security Officers. Both officers were transported to the Alameda County Hospital, where one of the officers succumbed to his injuries. As of June 1, 2020, the other officer is in stable condition.
- ~~(U)~~ On June 1, 2020, at approximately 11:30 PM PST, a Las Vegas Metropolitan Police officer was shot in the head while attempting to take a suspect into custody during violent demonstrations in Las Vegas. The officer is currently in critical condition.

~~LAW ENFORCEMENT SENSITIVE~~

- ~~(U//FOUO)~~ On May 29, 2020, at approximately 10:00 PM PST, in San Jose, CA the driver of a grey Dodge Durango and protesters engaged in a verbal altercation which escalated into apparent vehicle ramming attack by the driver resulting in two civilians injured (one seriously) and one deputy injured. A deputy fired at the vehicle before it fled. As of 11 AM PST on 30 May, the vehicle was located, and the driver and passenger involved in the incident have been arrested.
- ~~(U//FOUO)~~ On June 1, 2020, A vehicle struck three police officers in Buffalo New York (two Buffalo Police Officers and one NY State Trooper). The suspects were injured and are now in custody. They all have significant criminal records with no violent known extremist affiliations.
- ~~(U//LES)~~ On June 2, 2020, U.S. Secret Service (USSS) Uniformed Division officers made six arrests during disturbances in and around Lafayette Park and along Pennsylvania Avenue in Washington, D.C., near the White House, according to a USSS statement Saturday. "Multiple Secret Service Uniformed Division Officers and Special Agents sustained injuries from the violence," the statement added.
- ~~(U)~~ On June 1, 2020 at approximately 6:33 pm, violent protestors on H Street NW began throwing projectiles including bricks, frozen water bottles and caustic liquids. The protestors also utilized terrain to their advantage by climbing onto a building at the north end of Lafayette Park. Intelligence had revealed calls for violence against the police, and officers found caches of glass bottles, baseball bats and metal poles hidden along the street.
- ~~(U//LES)~~ Since mid-2016, public protests and demonstrations have seen an increase in the use of violent, assaultive tactics. Familiarity with these tactics and associated objects/items may improve officer safety:

(b)(7)(E)

- ~~(U//FOUO)~~ On 27 May, peaceful demonstrations turned violent in Downtown Los Angeles, with protestors blocking streets and freeways, shattering the windows of two California Highway Patrol cruisers, tagging graffiti onto the LAPD HQs building, and burning an American Flag
- ~~(U//LES)~~ As of June 1, 2020, at least 15 major cities across the country had imposed curfews, and several had also declared States of Emergency. At least 20 states have mobilized or requested National Guard units to support infrastructure protection activities.

(b)(7)(E)

In Minneapolis, New York City, Oklahoma, and Philadelphia, field assessments of social media posts inciting violence may prompt an escalation of violence to levels seen this weekend.

~~(U//FOUO)~~ **Vehicle Ramming Attacks Against Pedestrians**

~~(U)~~ **OVERVIEW**

~~(U)~~ On 31 October 2017, a 29-year old male subject, deliberately rammed a vehicle into pedestrians and cyclists on a New York City bike path in lower Manhattan, killing eight and wounding thirteen, according to open source reporting. The subject used a rented truck to ram his victims and then exited the vehicle with imitation firearms, while shouting. A responding local law enforcement officer shot the subject and took him into custody with non-life threatening injuries. The subject's use of imitation firearms was likely an attempt to ensure he was killed by responding law enforcement, judging from similar previous incidents overseas where attackers displayed fake weapons and explosive devices to responding officers.

~~(U//FOUO)~~ Vehicle ramming incidents by violent extremists, such as those occurring most recently in New York City as well as at a Charlottesville, North Carolina demonstration, in popular pedestrian locations in Barcelona and London and at holiday celebrations in France and Germany in 2016, are becoming increasingly common. Since 2016, violent extremists have used cars and trucks on at least twelve occasions to ram into unsuspecting crowds during periods of peak crowd density. In some instances, the attackers followed the vehicle ramming with assaults against survivors or those responding to care for the injured using edged weapons or firearms to inflict even more casualties. According to the National Counter Terrorism Center, lone offenders aligned with violent terrorist extremist ideologies, such as those espoused by the Islamic State of Iraq and al-Sham (ISIS) and al-Qa'ida, probably will increase their use of vehicle ramming attacks.ⁱ

~~(U//FOUO)~~ In addition to the vehicle ramming terrorist attacks, there have also been at least eight vehicle ramming incidents at Federal facilities since 2008, six of which have occurred since 2015. Individuals involved in these incidents attempted to damage federal buildings and gates by vehicle ramming, and in one instance struck and injured a federal employee. In at least three of these incidents, the perpetrators displayed some form of suspicious activity that may have presented opportunities to prevent or mitigate the ramming

actions.

~~(U//FOUO)~~ Vehicular attacks require minimal training, expertise and resources or pre-operational planning. Deterrence and detection are often difficult. In addition, unlike active shooter tactics used to target crowds that are confined, vehicle ramming tactics do not require the target crowd to be confined and afford the attacker the opportunity to potentially escape to conduct additional future attacks.

~~(U//FOUO)~~ **OBJECTIVE AND TARGET SELECTION**

~~(U//FOUO)~~ Most recent vehicle ramming attacks by terrorists have been designed to kill the maximum number of pedestrians; seed doubt in a government's ability to protect its citizens; create psychological disruption and fear; and gain media attention for the perpetrator's cause.

~~(U//FOUO)~~ The attackers have selected attack locations based upon the location's accessibility by the vehicle, approaches that allow the vehicle to accelerate to high speeds and venues that provide maximum crowd density with limited avenues of escape. In general, attractive targets are any outdoor events that draw large crowds. Potential target locations include:

- Conventions and celebrations
- Pedestrian-congested streets, such as pedestrian malls during rush hour or pre- & post-event choke points
- Mass transit entrances and exits
- Outdoor markets
- Festivals
- Parades
- Other outdoor events attracting large crowds

~~(U//FOUO)~~ **STRATEGIES FOR LAW ENFORCEMENT OFFICERS**

~~(U//FOUO//LES)~~ The following strategies can be used by law enforcement officers to detect, deter and prevent a vehicle ramming attack:

(b)(7)(E)

(b)(7)(E)

~~(U//FOUO)~~ **STRATEGIES FOR TENANT AND VISITOR SAFETY**

~~(U)~~ These strategies should be shared with tenants and other occupants of federal facilities.

Before attending large public gatherings:

- Have a prepared mindset.
- Review online event guides and maps to become familiar with the event layout and identify safer routes to and from the venue that minimize close contact with vehicle traffic. Visit the location before the event if possible.
- Pre-identify several escape routes and safe havens for the location where you plan to be, utilize hardened barriers, such as bollards, buildings, and guardrails, and natural terrain features.
- Bring with you only what you really need for safety and comfort so that you have less gear to manage if you must move quickly.
- Carry a pocket-sized Individual First Aid Kit (IFAK) for self-care and care of others.
- Create a plan and have a discussion with family and friends accompanying you to develop contingency for communications and reunification if there is an attack. Have a designated rally point several blocks away.

During the attack:

- When attending special events, choose your location carefully based upon the safest and most protected location; don't worry about getting a front row seat. In vehicular terrorist attacks, those

closest to vehicular access are the most vulnerable.

- Avoid the center or densest parts of the crowd; try to stay on the fringe to allow options for movement.
- Stay near street corners rather than the middle of the block; this will allow for more avenues of retreat.
- Don't stand against walls, doors or other immovable objects where you could be pinned. However, the entry way of a sturdy, well-constructed building that is too narrow for a car to pass through may be a good safe haven.
- Avoid standing on, under, or around temporary structures like stages or viewing platforms. If struck by a hostile vehicle, the collapse of those structures and the people falling from them represent another source of danger.
- Stay behind heavy security barriers or bollards; they can provide good cover and concealment from the vehicle attack, as well as from shots fired by the attacker and/or responding police.
- Scout out places for cover and concealment, such as concrete walls or large trees.
- Look for places of refuge, such as open stores or alleys that you can duck into if a hostile vehicle or frantic crowd passes by.
- Pay attention to any vehicle that moves erratically or diverges from the normal traffic pattern. If an erratically-moving vehicle veers toward you or the crowd, don't just run from danger; run toward safety.

After an attack, when it is safe, bystander intervention can make a critical difference, but before providing care for others make sure that it is safe to do so. In the initial post-attack environment, it is likely that:

- There will be a great deal of chaos, confusion and panic. More people may be injured from the resulting stampede than by the precipitating event.
- Move away from the area where the attacking vehicle has come to a stop. It is quite possible that the perpetrator will exit the vehicle and continue the attack with firearms and/or edged weapons.
- Be aware of the risk of multiple attackers or explosives, as well as other harmful materials which may be in the vehicle.
- There are likely to be multiple casualties.
- Injuries will range from minor to life threatening. Some may be gruesome, adding to the terrorizing effect of the attack.
- Apply basic first aid techniques to control bleeding. Simple bleeding control can save lives.
- Prioritize your safety and survival, and that of your family or friends accompanying you. You must use your judgement in these stressful moments to determine if it is safe enough to initiate care for the injured or if you need to move to a safer zone.

Good Afternoon Sirs-

Attached, please find the daily SITREP for (b)(7)(E)

The downtown area of Chicago (where our Federal Complex is located) remains in a semi-lockdown mode (e.g. bridges still raised, off-ramps blocked by large City dump trucks and Illinois State Police) by the City of Chicago (I personally had to maneuver around numerous checkpoints and credential my way to the Complex today). I say this to illustrate that for now, many (but not all) demonstrations were canceled and we are seeing a steep decrease in the numbers of people in the downtown area. It is reminiscent of the initial days of the COVID-19 stay home orders. In contrast, we are seeing increases in demonstrations in other parts of Region 5 that were previously untouched by this activity. For example, Lansing, MI, (yesterday), Grand Rapids, MI, and southern IL today.

(b)(7)(E)

This protest is directed at Grand Rapids PD (GRPD); the federal bankruptcy court is attached to the GRPD.

(b)(7)(E); (b)(7)(F)

Southern Ohio (Columbus and Cincinnati) continue to be the sites for large demonstrations, with Columbus having larger activity than Cincinnati. Indianapolis is bracing for more demonstrations and activity, with the Indianapolis Metro Police Department (IMPD), Indiana State Police (ISP), and National Guard present around our federal facilities. Southern Wisconsin (Milwaukee south to Racine and west to Waukesha) continues to see a sharp increase in activity; groups burned down a Racine Police Officers home last night and Milwaukee Police Department (MPD) is (b)(7)(E) (Note: MPD and several local agencies reporting that subjects are attempting to strike LE vehicles). Looting, burglaries, and arson events continued throughout the night, and inflammatory social media posts call for bringing "smoke" and to dress in black. So far, Milwaukee federal facilities are secure; we

(b)(7)(E); (b)(7)(F)

Region 5 still has additional resources deployed to Minnesota. The District Commander relayed that the National Guard (NG) was instrumental as it worked side-by-side with Minneapolis PD. As large groups moving around the exterior of the Minneapolis USCH (which is across the street from Minneapolis City Hall / Minneapolis PD Homicide Unit / Hennepin County Jail), the

Region 5 is concerned, however, that the Minnesota Governor announced demobilization of the NG. It's unclear how many will remain, but (b)(6); (b)(7)(C) stated, "This is not an order to return the entire organization back home". He went on to say that some troops will be moving out as early as Monday afternoon.

As you know, we will need to conduct damage assessments of federal buildings to include damage to our own assets.

Would like the reports to be separate and sent to the IMC over the next 48 to 72hrs. IMC will consolidate and be prepared to report out when required.

Additionally, we will schedule an RD call today ~1200hrs eastern time zone to discuss our posture for tonight. We anticipate a heavy Local PD enforcement.

FPS called in three Inspectors to monitor the event. The group quickly became unruly and a unknown subject threw a Molotov cocktail at the side of the facility causing some scorching to the outside of the facility.

Units on scene were able to put the fire out with a fire extinguisher. The crowd quickly dispersed from the area. FPS has several units and agents on scene including Commander (b)(6); (b)(7)(C) who is assessing the situation (b)(7)(E)

Good afternoon,

Attached, please find a Region 5 Intelligence Brief covering events in Minneapolis over the last several days. Additionally, please see the information below regarding (b)(7)(E)

(b)(7)(E)

News agencies are currently reporting the Minneapolis Mayor is instituting a curfew in Minneapolis from 2000 to 0600 hours beginning Friday, May 29, 2020. This, combined with the charging and arrest of the former Minneapolis Police Officer, may cause tensions to lessen. We are hopeful the immediate situation may resolve over the next few days,

POSSIBILITY OF VIOLENCE DIRECTED AT LAW ENFORCEMENT DUE TO CIVIL UNREST IN MINNEAPOLIS

~~(U//FOUO)~~ AFFECTED GEOGRAPHIC AREAS

~~(U//FOUO)~~ Nationwide

~~(U//FOUO)~~ OVERVIEW

~~(U//LES)~~ On Monday, May 25, 2020, an in-custody death took place in Minneapolis, Minnesota. The encounter between the subject and Minneapolis Police Department (MPD) was captured on video and has since become viral online. Nationwide demonstrations have occurred, with some turning destructive and violent. There have been directed threats to the MPD officers involved in the incident, as well as threats directed to all law enforcement officers (LEOs).

~~(U//FOUO)~~ BACKGROUND

~~(U//LES)~~ On Monday, May 25, 2020, MPD apprehended George Floyd, a potential suspect in a reported Forgery. When Floyd was being cuffed, an MPD officer placed his knee on Floyd's neck. Floyd repeatedly stated that he could not breathe and eventually became unresponsive. MPD later announced his death at a hospital. The four MPD officers involved in this incident have been terminated. On Friday, May 29, 2020, (b)(6); (b)(7)(C) the former MPD officer who had his knee on George Floyd's neck, was arrested and charged with third-degree murder and manslaughter. There is an on-going investigation into the incident by FBI-Minneapolis. The encounter between MPD and Floyd was captured on video and has since become viral online. Additionally, there have been threats made towards the MPD officers involved in the incident, and law enforcement officers in general. In response to the video, there have been nationwide demonstrations, with some turning destructive and violent. There have been major demonstrations in Minneapolis, which has seen major clashes between MPD officers and demonstrators. Demonstrations have included vandalism, looting, buildings on fire, officers firing tear gas, and directed attacks on law enforcement officers. On Thursday, May 28, demonstrators breached MPD 3rd Precinct. Once inside, they destroyed the interior of the building, stole law enforcement equipment gear, and set fire to the building. Open source live video streams revealed footage capturing the event as it unfolded.

In New York City, 40 demonstrators were arrested by New York Police Department Officers. Someone fired a gun near a peaceful demonstration in Denver, Colorado. In downtown Columbus, Ohio, demonstrations occurred that included vandalism and violence. FPS reporting revealed graffiti on the south side of the John W. ~~(U//FOUO)~~ ANALYSIS

~~(U//LES)~~ It is assessed with a high degree of confidence that nationwide demonstrations will continue to occur, especially throughout the Minneapolis and St. Paul areas. It is also assessed that many of these demonstrations will continue to include destruction and/or violence. Individuals, or groups, who desire to implement an attack on LEOs may not distinguish between different law enforcement agencies and may conduct their attack if an opportunity exists. Demonstrators may try to generate media attention by various tactics and/or try to engage law enforcement personnel to provoke a response.

~~(U//LES)~~ Demonstrations may occur without advanced notice at, or around, federal facilities. Demonstrators will most likely use social networking sites during the demonstrations to quickly mobilize and coordinate activities. Additionally, as has been the case the previous two days, participants may be wielding rudimentary weaponry and improvised incendiary devices. Law enforcement personnel must continue to be alert and be capable of reacting to a situation if one should happen to arise.

~~(U//LES)~~ Research has not identified any specified credible threats directed at federal facilities to coincide with any demonstration.

(b)(7)(E); (b)(7)(F)

LEOs and security personnel must remain vigilant for any threats during this timeframe and properly report any suspicious activity occurring in, and around, federal buildings and assets.

~~(U//LES)~~ Please see the Appendix of this document to find a map with a list of federal facilities within a .50-mile radius from Minneapolis City Hall.

One of the groups that has been organizing protests against ICE facilities in R10 posted video on Twitter that does not show the Molotov cocktail being used but does show the faces of some protesters. A hashtag on the post indicated the protest was in support of George Floyd, the man who was killed by Minneapolis Police recently.

The group quickly became unruly and a unknown subject threw a Molotov cocktail at the side of the facility causing some scorching to the outside of the facility. Units on scene were able to put the fire out with a fire extinguisher. The crowd quickly dispersed from the area. FPS has several units and agents on scene including Commander (b)(6); (b)(7)(C) who is assessing the situation.

Sirs,

I was just briefed that the Patrick V. McNamara Federal Building has 4 glass, exterior wall panels broken out by protesters. The FPS personnel (LE & PSO), along with Detroit PD, repelled the protesters and they did not breach the facility. DPD remains engaged with the protesters, who are now heading for DPD headquarters.

Additionally, the US Bankruptcy Court in Grand Rapids, MI shares a building with Grand Rapids PD HQ. GRPD HQ has been breached and protesters control sections of the interior. The protesters are actively setting fires inside the building. We do not have any information indicating the Court side of the building has been breached. (b)(7)(E)

I will update with further developments.

Subject: Request from the US Park Police

Folks, just got off the phone with (b)(6); (b)(7)(C) the Acting Chief of the US Park Police. He reported that during the violent protest at the White House/Lafayette Park last night 13 USPP and 10 USSS officers were injured and unavailable to work today.

Apparently, once the demonstration at DOJ ends the group with them travel to the White House.

The Park Police is asking if we have any Officers that can provide support at the White House after DOJ and if we have any bicycle rack type fencing that they can use.

Lawyers, do we have the authority/jurisdiction to assist the Park Police at the federal owned Lafayette Park?

(b)(6); (b)(7)(C)

do we have the manpower to support this request?

Thanks,

Please let me know how you would like to proceed and coordinate based on the national posture, I am available for a phone call or Teams discussion at your availability.

Update and Context.

(b)(7)(A); (b)(7)(E)

Meanwhile, additional protests related to the death of George Floyd will occur tomorrow afternoon, Friday May 29th at 1130AM at FPS protected Terry Shrunk Plaza in Portland. This

event is called "A Eulogy for Blacks in America" and will feature several high profile social justice activists and local elected officials. The organizers are likely to encourage peaceful protest but there is the potential for small splinter groups to cause problems in the area. There have been social media threats to occupy the justice center which is located near Terry Shrunken, Edith Green building and the USCH.

(b)(7)(E); (b)(7)(F)

There will also be protests related to the death of George Floyd in Seattle on Saturday May 30th that will travel to the US Courthouse at 700 Stewart and potentially other federal facilities. We

Good morning sir, please see below regarding a fire at the ICE facility in Portland, OR. FPS Region 10 is still collecting information on this incident but early reporting is that at approximately 1:15 am this morning a group of about 30-40 protesters showed up at the ICE facility and held an unplanned protest. (b)(7)(E)

The group quickly became unruly and a unknown subject threw a Molotov cocktail at the side of the facility causing some scorching to the outside of the facility. Units on scene were able to put the fire out with a fire extinguisher. The crowd quickly dispersed from the area. FPS has several Officers and Special Agents on scene assessing the situation.

(b)(7)(E)

We will provide updates as we learn additional information.

Peaceful protest turned violent in downtown Pittsburgh.

Local police cruisers were set on fire, looting and vandalism of downtown businesses are still going on. Police shot down the city and are dealing with the issue. Downtown is not safe anymore.

Our FOB and CH are in the middle of it but so far no damages has been reported.

Although it is still an on going situation, I will notify of any changes affecting our facilities or mission.

Subject: Protest Activity

Good morning team. I just wanted to get a few things out to you.

First of all, this weekend you guys rocked it. With multiple large protests in Jacksonville, Miami, and Fort Lauderdale I know many of you are exhausted. (b)(7)(E) for protests in Ocala, Orlando, Tampa, and Fort Meyers. We have received recognition all the way up the chain for your efforts. For those of you that do not know (b)(7)(E)

There was significant looting and vandalism all the way around the court complex but only limited graffiti to federal property. Other federal buildings across the nation had significant damage.

(b)(7)(E), (b)(7)(F)

Also this week, the government starts to reopen some of the forward facing agencies, so we may see problems with at them. Remember just because we have another mission does not mean our primary mission goes away. Please keep the PSOs and tenants informed. If you need information just ask your AC and we will get it to you. Be safe out there!

Subject: Protest Safety Advisory May 29th and 30th Seattle and Portland

(b)(6); (b)(7)(C) and OPM Colleagues,

Please see below the FPS safety advisory for today and tomorrow. Please feel free to disseminate through FEB channels.

Dear Federal Executive Board Members,

Recently, a man named George Floyd was killed in a confrontation with police in Minneapolis. The police officer whose actions killed Mr. Floyd was arrested today. This incident has caused an outpouring of frustration over police relationships with communities that have historically been marginalized. Sadly, some protests have become violent. Here in the PNW we have had several protests related to the death of Mr. Floyd and expect to have more. While the majority of the people engaged in these events have peacefully expressed their constitutional rights to free speech, we have experienced small groups acting violently. FPS will have teams in place in

Seattle, Tacoma, and Portland, to protect federal facilities and are in close coordination with local police and federal partners.

We assess that there will be protests over the next several days, both planned and unplanned. While the majority of protesters will be peaceful, we assess there is the potential for individuals or small groups to engage in acts of violence against property, law enforcement officers, and symbols of government. Traffic and business in the areas near the protests will be disrupted by police operations, convoys, and security cordons.

Portland Oregon –

Friday May 29th: There is a protest at Terry Shrunken Plaza this afternoon at 1100AM near several federal facilities and another in North Portland starting at Peninsula Park starting at 6PM.

Seattle Washington –

Friday May 29th: There is a planned protest starting 7pm at Hing Hay Park. We do not know if this event will travel to federal facilities.

Saturday May 30th: There is a planned protest in Seattle involving a march from 12PM to 5PM that will start at Westlake Park. The planning for this event is dynamic and evolving and we have received mixed reports regarding its potential to travel to federal property.

While most federal agencies are using maximum telework there are essential personnel working at federal facilities in these cities and we recommend that you advise them to use caution if travelling or working during these times.

Here are some reminders for your employees:

- Always be aware of your surroundings.
- When entering or exiting secured areas, make sure the door latches behind you; do not let others 'tailgate.'
- When inside the office, keep your ID visible and with you at all times.
- When outside of the office, put your ID out of sight.
- If you are approached and are asked suspicious questions or see anything or anyone suspicious, please report this to authorities immediately.

We ask that you remind your personnel to report suspicious activity immediately to the Denver Megacenters at [1-877-437-7411](tel:1-877-437-7411).

Subject: Ongoing National Situation

R2 Team,

Good afternoon and happy Friday.

As I'm sure you've all seen, there's been a marked increase in protest activity across the country over the last few days and many of these have been directed at law enforcement. Some of these have been in immediate proximity to some of our protected facilities. In other parts of the country, some protests have turned violent and have resulted in significant damage to property and, in some cases, have resulted in extensive damage to law enforcement equipment and facilities.

More protests are expected to occur over the weekend and our Investigations Branch is working hard to keep all of you informed on protest activities that may impact us as well as to provide you information needed to ensure officer safety.

(b)(7)(E) I would just like to remind you all that we all have a responsibility to protect life and property but, equally important, we have the legal and moral obligation to ensure people's constitutionally guaranteed rights to exercise free speech and assembly. FPS has determined that the names of groups or individuals involved in lawful protest activity, as well as the reasons for the protests, are not relevant to our mission of protecting people and property.

Additionally, all LEOs should adhere to the following:

- Keep yourselves and your fellow LEOs safe. Property can be replaced, lives cannot
- Remain calm and professional at all times (b)(7)(E)
- Know and adhere to the FPS Use of Force policy when taking enforcement actions
- Safeguard FPS law enforcement property and vehicles
- Do not engage in debates or other verbal exchanges with members of the public. Our role is to dispassionately enforce the law, protect property, and defend the Constitution

These are difficult times for all of us for many reasons, but they also afford us the opportunity to showcase our training, skills, and dedication to our Nation, our Constitution, our Agency, and the public we serve. I know I can count on all of you to continue to carry out our mission with the quiet professionalism that ensures that, even though we live and work in the most challenging environment in the country, we continue to be the best Region in the nation!

In closing, I'd like to share with you one of my favorite quotes:

THESE are the times that try men's souls. The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of their country; but he that stands by it now, deserves the love and thanks of man and woman. Tyranny, like hell, is not easily conquered; yet we have this consolation with us, that the harder the conflict, the more glorious the triumph. What we obtain too cheap, we esteem too lightly: it is dearness only that gives every thing its value. Heaven

knows how to put a proper price upon its goods; and it would be strange indeed if so celestial an article as FREEDOM should not be highly rated.

POSSIBILITY OF VIOLENCE DIRECTED AT LAW ENFORCEMENT DUE TO CIVIL UNREST IN MINNEAPOLIS

~~(U//FOUO)~~ **AFFECTED GEOGRAPHIC AREAS**

~~(U//FOUO)~~ Nationwide

~~(U//FOUO)~~ **OVERVIEW**

~~(U//LES)~~ On Monday, May 25, 2020, an in-custody death took place in Minneapolis, Minnesota. The encounter between the subject and Minneapolis Police Department (MPD) was captured on video and has since become viral online. Nationwide demonstrations have occurred, with some turning destructive and violent. There have been directed threats to the MPD officers involved in the incident, as well as threats directed to all law enforcement officers (LEOs).

~~(U//FOUO)~~ **BACKGROUND**

~~(U//LES)~~ On Monday, May 25, 2020, MPD apprehended George Floyd, a potential suspect in a reported Forgery. When Floyd was being cuffed, an MPD officer placed his knee on Floyd's neck. Floyd repeatedly stated that he could not breathe and eventually became unresponsive. MPD later announced his death at a hospital. The four MPD officers involved in this incident have been terminated. On Friday, May 29, 2020, (b)(6); (b)(7)(C) the former MPD officer who had his knee on George Floyd's neck, was arrested and charged with third-degree murder and manslaughter. There is an on-going investigation into the incident by FBI-Minneapolis. The encounter between MPD and Floyd was captured on video and has since become viral online. Additionally, there have been threats made towards the MPD officers involved in the incident, and law enforcement officers in general. In response to the video, there have been nationwide demonstrations, with some turning destructive and violent. There have been major demonstrations in Minneapolis, which has seen major clashes between MPD officers and demonstrators. Demonstrations have included vandalism, looting, buildings on fire, (b)(7)(E) and directed attacks on law enforcement officers. On Thursday, May 28, demonstrators breached MPD 3rd Precinct. Once inside, they destroyed the interior of the building, stole law enforcement equipment gear, and set fire to the building. Open source live video streams revealed footage capturing the event as it unfolded.

The social media user also created another post with a picture of an individual appearing in a facemask and holding a rifle, accompanied with the statement, "If any of you are gonna go tour Minneapolis, don't forget essential kit."

~~(U//FOUO)~~ ANALYSIS

~~(U//LES)~~ It is assessed with a high degree of confidence that nationwide demonstrations will continue to occur, especially throughout the Minneapolis and St. Paul areas. It is also assessed that many of these demonstrations will continue to include destruction and/or violence. Individuals, or groups, who desire to implement an attack on LEOs may not distinguish between different law enforcement agencies and may conduct their attack if an opportunity exists. Demonstrators may try to generate media attention by various tactics and/or try to engage law enforcement personnel to provoke a response.

~~(U//LES)~~ Demonstrations may occur without advanced notice at, or around, federal facilities. Demonstrators will most likely use social networking sites during the demonstrations to quickly mobilize and coordinate activities. Additionally, as has been the case the previous two days, participants may be wielding rudimentary weaponry and improvised incendiary devices. Law enforcement personnel must continue to be alert and be capable of reacting to a situation if one should happen to arise.

~~(U//LES)~~ Research has not identified any specified credible threats directed at federal facilities to coincide with any demonstration. However, due to the fact that federal facilities are symbols of the American federal government, they are often viewed as desirable targets. An attack on a federal facility can occur in a variety of ways and is only limited to the imagination of the individual(s) who are planning, coordinating, and executing the attack. Therefore, a heightened state of vigilance during this time is necessary. LEOs and security personnel must remain vigilant for any threats during this timeframe and properly report any suspicious activity occurring in, and around, federal buildings and assets.

~~(U//LES)~~ Please see the Appendix of this document to find a map with a list of federal facilities within a .50-mile radius from Minneapolis City Hall.

Southern District (FL) – Hundreds of protestors gathered in downtown Miami and Ft. Lauderdale resulting in 28 arrests by local police. A 2000 hour curfew is in effect with the majority of protestors complied. Other peaceful protests occurred throughout the state.

Jacksonville, FL

- Protests continued on Sunday; however, an earlier curfew was credited with reducing the protest impact. There was no known damage to government property.

Miami

- Miami had a protest (b)(7)(E) that started at 600 people and grew to about 1,500 within 3 hours. The protestors started two blocks from the Wilkie Ferguson Federal Courthouse campus (b)(7)(E) located 400 North Miami Ave, Miami, FL and marched to the courthouse. This campus has (b)(7)(E) buildings on it, including Miami Federal Detention Center (FDC). Protestors were communicating with the inmates through the windows and getting the inmates agitated. The inmates started pounding on the windows which could be clearly heard from the street. In addition, protestors started to tag the building and adjacent barriers. A team of FPS Inspectors and Special Agents cleared the federal property without incident. (b)(7)(E) GSA was notified of the damage. There was no unauthorized access to government space.
- As a result of the protest activities at and near the Wilkie Ferguson Federal Courthouse, FPS law enforcement personnel (b)(7)(E) Upon patrolling the other facilities, there was no other known damage observed.

- There was a protest of approximately 1,500 people two blocks from the Fort Lauderdale Federal Courthouse (b)(7)(E) located at 299 E Broward, Fort Lauderdale, FL resulting in looting and vandalism requiring support of the Mobile Field Force from several agencies to obtain order. The protesters marched past the Federal Courthouse several times. No damage to Federal property occurred.

One of the groups that has been organizing protests against ICE facilities in R10 posted video on Twitter that does not show the Molotov cocktail being used but does show the faces of some protesters. A

hashtag on the post indicated the protest was in support of George Floyd, the man who was killed by Minneapolis Police recently.

Update 6 -

Overall a big a success. Zero federal facilities or police buildings taken over today and that was the goal. Our guys did a great job and (b)(7)(E)
(b)(7)(E) Picture attached.

Seattle - Things seem to be wrapping up for the night. Still having incidents of looting and vandalism in Seattle but situation stabilizing. I'm going to grab some sleep.
(b)(7)(E)

Portland - theres been a "non protest related shooting" near downtown that's causing police activity but otherwise protests seem to be dying down.

Likely more problems tomorrow.

I remained in contact with the Battle Creek MegaCenter and as of 0045 hours, the protest was moving away from the Bricker Federal Building and Schaff Building (both located on North High Street). To my knowledge, the protest remained off federal property. At times, the protest became violent/destructive and (b)(7)(E) (b)(6); (b)(7)(C); (b)(7)(E) to which she relayed the following facilities were impacted (vandalized):

1. (b)(7)(E) - John W. Bricker Federal Building located at 200 North High Street, Columbus, OH 43215 **(Graffiti engraved on the south side of the building)**
NOTE: This is a multi-tenant GSA owned Federal facility
2. (b)(7)(E) - One Columbus Center located at 10 West Broad Street, Columbus OH 43215 **(ACAB - All Cops Are Bastards on the south side of the building)**
NOTE: This is a mixed-tenant GSA Leased facility and the vandalism was to the exterior only and federal space was not impacted.

Sir,

Presently we are monitoring two significant demonstrations within Northern District this evening

(b)(7)(E)

(b)(7)(E)

Nashville TN: The Mayor has declared a State of Emergency beginning at 1000pm this evening due to the now destructive crowds. They have set a fire, sprayed painted graffiti, and tore down street lights at the City Hall/Metro Courthouse and Nashville PD has deployed tear gas. PD is announcing that all will have to disperse from Legislative Square [REDACTED]

[REDACTED] We have four facilities located one block from Music City Center where the protests first started but did not head towards any of them.

Memphis TN: There are approximately 500 demonstrators adjacent to the Clifford Davis – Odell Horton Federal Building. They initially wanted to gather on Federal Property but the PSO on duty told them they could not and they moved over to the plaza that is next to the building and in front of the Memphis Police Station. They are peaceful and appear to be heeding to instructions from law enforcement.

Tupelo MS: Started at 1700 with approximately 75 disorganized but peaceful protestors at City Hall.

Oxford MS: Approximately 150 peaceful protestors at City Hall. Unknown start time.

- (b)(6); (b)(7)(C) - OPM

Key Points:

- PCE made FEB HQ aware that FPS Regional Director (b)(6); (b)(7)(C) will be reaching out to MN FEB to touch base and gauge if there is any intent for federal facilities in the Minneapolis area to change their posture in response to riots and unrest resulting from the death of George Floyd (i.e. modifying operations, telework, etc.)
- (b)(7)(E)
- FEB HQ thanked FPS for the continued coordination on this and other dynamic situations affecting the FEB's.
- FEB HQ spoke to the Minneapolis FEB Executive Director (ED) this morning. The Minneapolis FEB has reached out to board members and requested further information on facility locations, status of facility (open or closed) number of essential personnel in those facilities, and if the facility is accepting the public.
- The Minneapolis FEB ED has been in contact with FPS RD (b)(6); (b)(7)(C) and will continue to communicate and share information on the situation and facilities.
- FEB HQ advised that the protests are primarily taking place in residential areas and not in the downtown area. They also shared that due to COVID most agencies are in a max telework posture.

- FEB HQ did not know of any further impacts to federal facilities or FEB agencies in other parts of the country but will continue to keep in contact with PCE.

The first protest, Justice for George Floyd, is scheduled to take place at Boston City Hall from 1500-1700 hours. Multiple social media pages make it appear like 200-500 are expected. The second protest, Black Lives Matter, is planned to hold a march which is to end at the State House. There are multiple social media pages for this cause showing as much as over a 1000 expected. While today's activities were peaceful, protests in South Boston on Friday had multiple arrest for assault and battery, weapons possession, etc.

Summary of Events / Justification of Request:

On May 25, 2020, at approximately 8:00 p.m. Minneapolis Police Department (MPD) were called to the 3700 block of Chicago Avenue South on a report of a man attempting to use forged documents at Cub Foods. Officers found George FLOYD in a car at the scene. He appeared intoxicated, police say. Officers ordered him to get out of the car. "After he got out, he physically resisted officers," police spokesman (b)(6); (b)(7)(C) told reporters early Tuesday. "Officers were able to get the suspect into handcuffs and officers noticed that the man was going into medical distress." An ambulance brought Floyd to Hennepin Healthcare, where he later died, police say. (<https://minnesota.cbslocal.com/2020/05/26/george-floyd-man-dies-after-being-arrested-by-minneapolis-police-fbi-called-to-investigate/>)

On 05/27/2020, Minneapolis Police Department has terminated the Officers involved.

There are many videos that have been released on this incident and this has sparked a lot of attention in the community as well. Protesters were already seen outside Minneapolis Police's 3rd Precinct on Lake Street today and another protest is planned for tonight (5/26/2020) at the scene of the incident which is 38th and Chicago Avenue. The evening protest is being organized by a number of local activist groups, including the Minneapolis NAACP, Communities Against Police Brutality, and Black Lives Matter Twin Cities. Its been advertised on local media outlets as well as Facebook, Twitter and Instagram.

Good evening,

So far so good R3 has only had two incidents of vandalism one at the Richmond FCH and another at the federal complex in Philly where walls were spray painted. The state and the locals

haven't been so lucky in Philadelphia a state troopers vehicle was torched, a former mayors statue was set ablaze, and a Starbucks was set on fire and multiple commercial businesses have been damaged and looted.

I will provide further updates as they occur or impact federal facilities.

(b)(6); (b)(7)(C) and OPM Colleagues,

Please see below the FPS safety advisory for today and tomorrow. Please feel free to disseminate through FEB channels.

Dear Federal Executive Board Members,

Recently, a man named George Floyd was killed in a confrontation with police in Minneapolis. The police officer whose actions killed Mr. Floyd was arrested today. This incident has caused an outpouring of frustration over police relationships with communities that have historically been marginalized. Sadly, some protests have become violent. Here in the PNW we have had several protests related to the death of Mr. Floyd and expect to have more. While the majority of the people engaged in these events have peacefully expressed their constitutional rights to free speech, we have experienced small groups acting violently. FPS will have teams in place in Seattle, Tacoma, and Portland, to protect federal facilities and are in close coordination with local police and federal partners.

We assess that there will be protests over the next several days, both planned and unplanned. While the majority of protesters will be peaceful, we assess there is the potential for individuals or small groups to engage in acts of violence against property, law enforcement officers, and symbols of government. Traffic and business in the areas near the protests will be disrupted by police operations, convoys, and security cordons.

Portland Oregon -

Friday May 29th: There is a protest at Terry Shrunken Plaza this afternoon at 1100AM near several federal facilities and another in North Portland starting at Peninsula Park starting at 6PM.

Seattle Washington -

Friday May 29th: There is a planned protest starting 7pm at Hing Hay Park. We do not know if this event will travel to federal facilities.

Saturday May 30th: There is a planned protest in Seattle involving a march from 12PM to 5PM that will start at Westlake Park. The planning for this event is dynamic and evolving and we have received mixed reports regarding its potential to travel to federal property.

While most federal agencies are using maximum telework there are essential personnel working at federal facilities in these cities and we recommend that you advise them to use caution if travelling or working during these times.

Here are some reminders for your employees:

- Always be aware of your surroundings.
- When entering or exiting secured areas, make sure the door latches behind you; do not let others 'tailgate.'
- When inside the office, keep your ID visible and with you at all times.
- When outside of the office, put your ID out of sight.
- If you are approached and are asked suspicious questions or see anything or anyone suspicious, please report this to authorities immediately.

We ask that you remind your personnel to report suspicious activity immediately to the Denver Megacenter at [1-877-437-7411](tel:1-877-437-7411).

Omaha NE

100-150 protesters are gathered in front of the USCH, 111 S. 18th Plaza, Omaha, NE.

(b)(7)(E) Fairly peaceful at this point. However Omaha PD (b)(7)(E) earlier at a different location. The front door of the USCH has been vandalized with what appears to be a paint pen on the glass.

Kansas City

Crowds started looting stores on the plaza and starting fires. 50+ arrests so far. KCPD has now called this an unlawful assembly and advised the crowd to leave or be arrested. Not many leaving. The large crowd had marched within a block of the Fed building / PD HQ then retreated back to the plaza. At least one KCPD vehicle burned - total loss. Lasers pointed at and rocks thrown at officers.

If there are any questions please let me know.

Sirs,

I was just briefed that the Patrick V. McNamara Federal Building has 4 glass, exterior wall panels broken out by protesters. The FPS personnel (LE & PSO), along with Detroit PD, repelled the protesters and they did not breach the facility. DPD remains engaged with the protesters, who are now heading for DPD headquarters.

Additionally, (b)(7)(E); (b)(7)(F)
(b)(6); (b)(7)(C) GRPD HQ has been breached and protesters control sections of the interior. The protesters are actively setting fires inside the building. We do not have any information indicating the Court side of the building has been breached. (b)(7)(E); (b)(7)(F)
